Saikeerthan Jami

PROFILE

Highly Motivated for career growth with an esteemed organization where I can utilize my skills in the field of IT. I strongly believe in accuracy and precision in execution of tasks. I believe I have good communication skills that would provide transparency and productivity in the organization.

EDUCATION

Pursuing Final year in engineering in SR International Institute of Technology in branch of CSE.

IT SKILLS

- C
- C++
- Java
- Python
- HTML
- CSS
- Oracle DB

PROJECTS

I have done a minor project in my first semester of 4th year on "Block Hunter Federated Learning for Cyber Threat Hunting using Block chain". It's main purpose is to hunt for attackers with text searching capabilities using Federated Learning algorithms that search and filter words that have been uploaded by the admin.

I have completed a major project on " Honey Password Authenticated Key Exchange". This project's purpose is to authenticate users based on credibility and then exchange key to the user through email using Honey Keyword Mechanism and algorithm.

DOB: 05-08-2002
